

2015 FIRST YEAR ENGINEERING EXPERIENCE (FYEE) CONFERENCE

The conference committee would like to thank the people that have agreed to act as session chairs at the 2015 First Year Engineering Experience (FYEE) Conference. Session chairs play an important role in ensuring the conference runs smoothly and that the technical presentations are a valuable experience for both speakers and attendees.

The primary responsibilities of session chairs are to:

- Help develop a title for the session that describes the focus of each paper
- Contact the authors in the session to make sure they know which author will be presenting and how to pronounce their names
- Introduce the session and make any FYEE announcements that are needed.
- Manage time during the session -- hold each presentation to its time limit
- Briefly introduce each speaker and paper.
- Manage audience questions, and ensure that presentations occur within their predefined time slots.
- Manage the end of session discussion period
